

PC to TV Converter

KA002 converts VGA to Composite video and S-video, and is with one VGA pass-through output.

- 1 Input: 1 x VGA
- 3 loop-through output: 1 x VGA, 1 x Composite Video, 1 x S-video
- 1 x VGA output is pass through without processing
- On Screen Display (OSD)
- Both PAL / NTSC are compatible
- HSIZE, VSIZE, BRIGHTNESS, CONTRAST, HUE, SATURATION, SHARPNESS and OSD background colour are adjustable
- VGA resolution: 640x480 (60/72/75/85Hz), 800x600 (60/75Hz), 1024x768 (60/75Hz). Lower resolution is recommended to achieve better visual effect
- Power by USB cable, when failure, a DC 5V/1A power supply is optional
